EXPERIENCE

Consultant-Data Breach
IOTA Analytics

📅 Nov 2024 – Feb 2025

- Participated in practical analytics projects by engaging in data cleaning, preprocessing, and visualization tasks.
- Contributed to the development of predictive models and dashboards through the use of Python and data visualization software.

Trainee-Web Development
Internshala Trainings

📅 Jun - Jul 2022

- Completed Web Development course that included HTML, CSS, Bootstrap, DBMS, PHP, JavaScript, and React.
- Achieved 100% in final assessment, recognized as a top performer in the program.

PROJECTS

Links Website (URL Shortener)
react.js , mongodb

📅 May 2025

- Frontend: Built using ReactJS, focusing on responsive design and seamless user experience.
- Backend: Used MongoDB for storing and retrieving original and shortened URLs via custom API.
- Functionality: Allows users to generate and manage short links; includes click tracking and redirection.

Netfix (Responsive Frontend Clone)
html, tailwindcss, js

📅 Feb 2025

- Developed a responsive frontend clone of Netflix using ReactJS and CSS/Styled Components.
- Implemented features like dynamic routing, hover effects, and a modern UI design resembling the original platform.
- Optimized for mobile and desktop devices using responsive layouts.

AI-ChatBots
botpress, html, css, javascript

📅 Dec 2024

- Developed an interactive AI chatbot using HTML, CSS, and JavaScript, designed to simulate human-like conversations.
- Integrated with Airtable API to fetch and store user data dynamically, enabling context-aware responses.
- Used conditional branching and modular message templates to personalize user experiences based on input paths.

EDUCATION

B.E in Computer Science
Chandigarh University

📅 July 2020 – May 2024   CGPA : 7.69

Intermediate-PCM
M.B.H College

📅 May 2020   Per : 73.2%

Class X-Matriculation
J.M.V Residential Public School

📅 June 2017   CGPA : 8.8

SKILLS

`C/C++` `Java` `Python` `HTML`
